

## Appendix A

# COVID-19 Health Screening Commitment 2020-21

To help meet the expectations of in-person classes, you must commit to the following guidelines:

1. Ensure that students are free of Covid-19 symptoms prior to attending school each day.
  - a. The CDC lists common symptoms as: fever or chills, cough, shortness of breath/difficulty breathing, fatigue, muscle/body aches, headache, new loss of taste or smell, sore throat, congestion/runny nose, nausea/vomiting, and/or diarrhea.
  - b. For fever, we define it as a temperature of 100.4 or higher, without medication.
  - c. Students who display symptoms should stay home and parents should notify the school.
2. Ensure that students have not been in close contact with someone either testing positive for Covid-19, or is awaiting test results. Students who have been in close contact should stay home and parents should notify the school.
3. Make prompt arrangements to pickup a student when the school notifies you that your child is ill.
4. Support and encourage compliance with mitigation strategies being applied in the school (physical distancing, use of face coverings, etc).

A copy of this agreement must be on file prior to a student's attendance in in-person classes. Students who do not have a copy of this agreement on file may attend school under the remote or virtual models.

**"I understand and acknowledge the risk of exposure or infection that may result from in-person classes and agree to these expectations."**
